COLOMBIER CHANDELIER FROM VAUGHAN

“The Colombier chandelier is so easy to use! The hand-applied sculpted leaves create a traditional feel while its asymmetrical detail makes it modern at the same time.”

JACQUELINE BY AERIN FOR CIRCA LIGHTING

“The Jacqueline two-tier chandelier by Aerin for Circa Lighting is one of my favorite light fixtures. I love how versatile it is. You can use it in a transitional or traditional dining room, in a master closet as a focal point over a concrete table. It takes on many different looks and remains timeless while doing so.”

FORTUNY LIGHTING

“My favorite light fixtures are those made by Fortuny, the Italian company specializing in luxury fabrics and silk and glass hanging light fixtures. They exude a flavor of exotic elegance and delicate beauty while also having a modern, versatile shape and appeal for any interior. The painted design on silk provides a warm, diffused glow that makes everyone look beautiful, be it over a dining room table, in a great room or even an office/library — and we all love looking good! I used one in a traditional double-height, oak-paneled library, and it gave the room an amazing “wow” factor that was so effective and truly special.”
